**FIVE M FARMS EQUIPMENT SELLING**

In this cattle and equipment sale there is an opportunity to purchase some of the best Shorthorn and Shorthorn crossbred cattle available in this area. Leon Millers 5 M Farms a number of years ago dispersed and two young men purchased "select" animals from this dispersal. This small herd has been held and bred to quality Red Brahman bulls or Shorthorns. The Base herd and the offspring will be sold. The EQUIPMENT is all that was used on the large 5 M Farm operation when it was a "cow-calf" unit PLUS some of the quality surplus farm equipment from one of the south's finest Nurseries. The cattle and equipment are all from 5 M Farms this is NOT a consignment sale. You will appreciate the equipment and it's condition. The sale will be held under a large barn and weather will not be a factor.

## ABBA Convention, Meeting Schedule In Tampa Set

Houston — The 1978 ABBA Convention and 54th Annual Membership Meeting will be held in conjunction with the 1978 National Brahman Show and Sale February 2-3 in Tampa, Florida.

Brahman breeders, guests and enthusiasts from all over the United States, Mexico, Central and South America will participate in the week's activities. This is the first annual membership meeting to be held outside of the state of Texas, and the officers and directors of ABBA have extended a special invitation to all Brahman breeders and their families to be a part of this historic event. Headquarters for all activities will be in the Riverside Hilton Inn.

Saturday, February 4, will be the final point for the week's activities. The ABBA director, Neil Potter, will judge the 1978 National Brahman Show, which starts at 8:00 a.m. on the Florida State Fairgrounds with the female classes. Some of the best young Brahman cattle in the world will come to Florida to compete for their share of national honors as well as some \$10,400 in prize money.

At 2:00 p.m. on February 4, activities move to the sale barn on the fairgrounds when the 1978 National Brahman Sale starts. A very select group of haltered cattle will be offered there in one of the year's most prestigious sales.

The week begins on Thursday, February 2, with the regular winter meeting of the association's board of directors and an informal style show for the ladies. Friday the annual membership meeting will be held beginning at 8:00 a.m. in the hall room of the Riverside Hilton Inn. Members will hear reports from their standing committees as well as annual reports by both Dr. Richard Ferguson, ABBA president, and Wendell Schronk, ABBA executive secretary. Officers will be elected and the newly elected directors will be named prior to the meeting's conclusion.

The annual dinner and dance will also be in the hotel's hall room on Friday at 8:30 p.m. and will feature the music of The Judge and the Jury. The event, which is expected to attract over 400 people, will begin with an informal reception at 6:30 p.m. followed by dinner and dancing until 12:00 midnight. Tickets for the reception and dinner-dance are on sale for \$17.50 per couple and members are asked to purchase them in advance.

## ABBA 1977 Transfers

The American Brahman Breeders Association processed a record 23,947 transfers during 1977.

The new record was the sixth consecutive transfer record and also marked the sixth straight year that transfers have increased. Registrations were down slightly from 1976's record 24,000 but still broke the 20,000 mark at 21,358.

Wendell Schronk, ABBA executive secretary, said the Brahman's continuing popularity could be attributed to its expanding role in crossbreeding programs and the breeders' ability to produce cattle to fit the needs of today's ranchmen.

## NCA Calls For Better Control Of Cattle Imports

(CONT. FROM PAGE 1)  
Bob Bergland, NCA President Richard A. McDougal noted that more than 900,000 cattle were imported from those two nations in the first 11 months of 1977.

McDougal acknowledged that the total number of cattle being imported from the neighboring countries is not within the total census, a large number of cattle. However, he said, "due to the impact, these imports do have devastating consequences to the domestic producers along the border states."

It was noted that in addition to live cattle imports, Canada and Mexico are significant exporters of beef subject to the Meat Import Law of 1964. Under the 1977 Voluntary Restraint Agreements, the U.S. was scheduled to import 82.1 million pounds from Mexico and 76 million pounds from Canada. McDougal said those figures are equivalent to an additional 342,000 cattle. In addition to this, he said, more imports from Canada and Mexico were allowed in 1977.

McDougal said, "We believe in being fair on trade matters, but enough is enough. It is difficult to understand why, when our own domestic industry has been suffering from losses for the past four years, we continue to allow and actually encourage more imports."

## Basic Agreement On Voluntary Meat Import Restraints

Washington — Secretary of Agriculture Bob Bergland said recently that the U.S. Government has reached a basic agreement with the governments of major meat exporting countries on arrangements to govern U.S. imports of meat, mainly beef, during 1978. He said all that remains is for the

## Texas Brahman Assn. Sale February 23

Twenty-five lots of top quality halter broken Brahman cattle will be sold in Houston on February 23 in the Texas Brahman Association's Houston consignment sale.

The sale will be at 1:00 p.m. in the Super Sale Salon and follows the Brahman bull judging, which is at 8:00 a.m. in the cattle room. A pre-sale party will start in the room next door to the sale salon immediately after the bull show.

Auctioneer for the sale will be Ike Hamilton. For more information, contact John Watson, Route 1, Box 81, Devine, Texas 78015, telephone (512) 663-2749.

Agreements, in which suppliers agree to hold exports to the United States below designated levels, to be formalized by the participating countries.

Canada is expected to participate in a separate arrangement covering U.S.-Canadian two-way trade in beef similar to that of 1977.

McDougal acknowledged that the total number of cattle being imported from the neighboring countries is not within the total census, a large number of cattle. However, he said, "due to the impact, these imports do have devastating consequences to the domestic producers along the border states."

It was noted that in addition to live cattle imports, Canada and Mexico are significant exporters of beef subject to the Meat Import Law of 1964. Under the 1977 Voluntary Restraint Agreements, the U.S. was scheduled to import 82.1 million pounds from Mexico and 76 million pounds from Canada. ## Houston Area Brahman Assn. Sale February 20

Seventy-six head of top quality Brahman cattle will be offered during the week of the Houston Area Show by the Houston Brahman Association. The sale will be in Houston on February 20 at 1:00 p.m.

The consignment sale will be at 1:00 p.m. and will feature 25 lots of females, both red and gray. The sale is scheduled for 12:00 noon in the room next door to the sale salon.

Agreements, in which suppliers agree to hold exports to the United States below designated levels, to be formalized by the participating countries.

Canada is expected to participate in a separate arrangement covering U.S.-Canadian two-way trade in beef similar to that of 1977.

McDougal acknowledged that the total number of cattle being imported from the neighboring countries is not within the total census, a large number of cattle. However, he said, "due to the impact, these imports do have devastating consequences to the domestic producers along the border states."

It was noted that in addition to live cattle imports, Canada and Mexico are significant exporters of beef subject to the Meat Import Law of 1964. Under the 1977 Voluntary Restraint Agreements, the U.S. was scheduled to import 82.1 million pounds from Mexico and 76 million pounds from Canada. McDougal said those figures are equivalent to an additional 342,000 cattle. In addition to this, he said, more imports from Canada and Mexico were allowed in 1977.

McDougal said, "We believe in being fair on trade matters, but enough is enough. It is difficult to understand why, when our own domestic industry has been suffering from losses for the past four years, we continue to allow and actually encourage more imports."

## Basic Agreement On Voluntary Meat Import Restraints

Washington — Secretary of Agriculture Bob Bergland said recently that the U.S. Government has reached a basic agreement with the governments of major meat exporting countries on arrangements to govern U.S. imports of meat, mainly beef, during 1978. He said all that remains is for the

## January 12, 1978 WEEKLY LIVESTOCK REPORTER Page 9 ABBA Convention, S. Texas Brahman Sale Set Feb. 11 At Pleasanton

Pleasanton, Texas — The South Texas Brahman Association's fifth annual Brahman show & sale will be held Saturday, Feb. 11, at 1 p.m. in the Alamosa Livestock Exchange here.

The sale offering will consist of 50 head bull prospects and top commercial bulls; and 100 replacement type females including pairs, bred cows and open heifers. Both Red and Gray Brahman cattle will be sold.

For further information contact: Watson Cattle Service, Route 1, Box 81, Devine, Texas 78015, phone 512/663-2470.

## Bergland Tells Farmers They Must Assume Risks of Farming

(CONT. FROM PAGE 1)  
not possible and not the role of the federal government to guarantee all farmers a profit year after year.

"Farmers, like any other businessmen, are entitled to a fair return on their investment, their labor and their management skills," he said.

While the nation, in its own self-interest, has a responsibility to keep agriculture productive and strong, the nation does not have the responsibility of assuming all the risks of farming and to guarantee full parity income, Bergland said.

## Stuph & Thangs

(CONT. FROM PAGE 1)  
Carol Tucker Foreman made recently to the Food and Nutrition Board of the National Academy of Sciences. National Research Council. Mrs. Foreman said "We need standards, or guidelines, based on an individual's age, sex, lifestyle, work environment, racial or ethnic origin, overall health and geographic location." Now that or to cover the landscape partly well. Her excuse for this bit is "the public wants guidance." What puzzle is to the who, when and where the public asked Mrs. Foreman and the rest of the Bureau of Agriculture for guidelines?

## Big "B" Brahman Bulls Avg. \$480

Sulphur Springs — The Big "B" Brahman bull sale at Sulphur Springs Livestock Commission Co. Jan. 7 received bids totaling \$27,350 on 57 bulls for an average of \$480. The consignment sale was conducted by Gayle Ingram, Quitman.

The top six bulls sold for \$700 each and were all purchased by Charlie Wood's Spring Valley Ranch, Cortez, Colo. Three were consigned by Stewart Barrow, Nacogdoches; two by Marion R. Lawler, Honey Grove; and one by J-B Ranches, Oran.

Another bull consigned by S. C. Short, Paris, was purchased by Tommy Casella, Huntington, for \$650.

The Spring Valley Ranch was a top volume buyer taking 11 head: 2M Cattle Co., Yantis, bought 16 lots; Fielding Ranch, Sulphur Springs four lots; and the balance went to buyers scattered over East Texas.

Big Slater Foreman and other Bureau members appear to get together now and then and get carried away by the heady perfume of Academic hashish and liquor over what they think we are to want. The most recent paper at USDA was the scheme to buy beef patties cooked and frozen. When the bids were all in, only two vendors had bid on this order, and in look to the "drown" board to find out what went wrong. Naturally, they would never think to ask meat packers if frozen, cooked beef patties were practical or could be produced in volume. This trip into the wild blue yonder is similar to Mrs. Foreman's plan to buy only ground beef for school and institutions made from choice or prime beef. This idea of letting folks eat higher on the beef ladder is never suggested that the beef industry be asked what might be wrong with hamburger made from choice or prime beef, instead of good lean cow beef.

We doubt not that most of us could do with a little guidance now and then, but the problem seems to be who is going to be the guide and how much experience they can show on their track records.

Ever think, The Edittor. P.S.: Uncle Dunk claims that what cause for this bit is "the public wants guidance." What puzzle is to the who, when and where the public asked Mrs. Foreman and the rest of the Bureau of Agriculture for guidelines?

## ABBA Convention, Meeting Schedule (CONT. FROM PAGE 8) from the association offices in Houston.

A registration/information desk in amount big enough to kill a horse, so a new strain of super-tough rats might help before we all die of fright. Dunk lingers that since then farmers fed cement dust to cattle and got big gains in weight we may have something concrete in the way of additives, but don't bet that if fed enough rancinate them test rats and gonna develop problems, too. Dunk poles where the Community Nutrition Institute has decided chilling poultry in cold water can add 12% to the weight and frozen poultry can pick up 10% in weight. The National Provisioner magazine, who has some experts to figure these things out says since 72 billion pounds of fryers and 575 million pounds of frozen poultry are sold, according to the USDA figures the industry sold you & me 821 million pounds of watter as chicken meat, rostin' us \$498 million dollars. The Provisioner wonders how many of these 25-pound chickens are in Washington writing consultant and Govmint reports — Thassell, Brothers!

The top six bulls sold for \$700 each and were all purchased by Charlie Wood's Spring Valley Ranch, Cortez, Colo. Three were consigned by Stewart Barrow, Nacogdoches; two by Marion R. Lawler, Honey Grove; and one by J-B Ranches, Oran.

Another bull consigned by S. C. Short, Paris, was purchased by Tommy Casella, Huntington, for \$650.

# TEXAS RED ANGUS NEWS

## Red Angus Booth Set For Young Farmers Convention

Waco — The Texas Red Angus Association will have an exhibit and information booth at the Texas Young Farmers Convention in Waco, Texas, Jan. 19-21 as part of the association's increasing efforts to introduce the breed to, and get younger persons interested in, Red Angus cattle.

William Temple, Waco Red Angus breeder, will be in charge of the booth which will also be manned at times during the convention by various members of the Texas Red Angus Assn., including the president, Clifford Hoffmann, Rowena, Danna, Hoffmann, Rowena, Lou Hertonborg, Novaco, Tim, Bauer, Winnie, and Jim McNabb, Edgewood.

Members of the Texas Junior Red Angus Assn. will also be on hand signing up new members and selling Red Angus promotional items to raise funds for shows and other activities of the junior association.

## TRA Board To Meet In Waco Jan. 21

Waco — The Board of Directors of the Texas Red Angus Assn. will hold its winter meeting at 8 a.m., Jan. 21, in the Convention Center at Waco, said Clifford Hoffmann, Rowena, president.

Hoffmann said the big item on the agenda will be finalizing plans for the Spring Plaid Day for which the time and place will be announced later, and discussion of the possibility of conducting a Red Angus bull test next fall and winter.

There has been lots of interest in such a bull test, and several directors will bring information about association members in their areas who might consider signing up to such a test, Hoffmann said.

## Redds Buy Famous Chigo Fout Free Red Angus Herd

Guthrie, Ohio. — George and Vernice Chigo have announced sale of the Chigo Red Angus Free portion of their

## KKAA Board To Meet Jan. 28-29 At Denton

Denton — A meeting of the board of directors of the Red Angus Association of America will be held at the national headquarters here Jan. 28-29 to formulate the direction and activities of the association for the 1978 fiscal year beginning July 1, 1978.

Recommendations from various committees met at the association's 24th annual convention recently in Louisville, Ky., will be considered by the board.

## Red Angus Junior Shows Set For San Antonio, Houston

Junior Red Angus steer and heifer shows are scheduled for both the San Antonio Livestock Show and Houston Livestock Show this year, and Texas Red Angus Assn. will have exhibit and information booths at both shows, according to Clifford Hoffmann, Rowena, association president.

The Junior Red Angus steer show at San Antonio will be after 8 a.m., Saturday, Feb. 11; and the Junior Red Angus heifer show at 2 p.m., Sunday, Feb. 12. Both shows will be in the stock show facility.

The Red Angus junior market steer show at Houston will be Thursday, March 2, after 7 a.m.; and the Red Angus junior breeding heifer show will be after 11 a.m., Saturday, March 4.

Members of both Texas Red Angus Assn. and Texas Junior Red Angus Assn. will man the booth at the Houston show, Hoffmann said.

## Red Angus herds to Paul Redd of Rodd Ranches, Parador, Colo. There are approximately 170 females and 20 bulls included in the sale.

The Redds, well-known, long-time breeders of outstanding Hereford cattle, have recently developed a top Red Angus herd by purchase of superior performing bulls and females. Addition of the Chigo Red Angus program to the Redds' Hereford program will produce a desirable infusion of the best in Chief and Success bloodlines, developed and made famous by the Chigos.

Included in the Chief line of Red Angus developed by Chigo are Chocot, Chief 629 and his most famous son, Chocot Chief 378, a product of Red H. Gilmour, Sr., Midland, Texas, and Chigo, Chocot Chief 378 is now owned by Wilson Farms, Olaton, Texas.

Chigo Success 0012 is a more recent development of the Chigo breeding program and is combining well with the older Chief line. Red Angus bulls now live at Noble Foundation, Ardmore, Okla., are proving themselves in Chigo's Chief Success combination with a top over all breed sire group showing a 3.22 pound weight per day of age at 10 months of age no mean success. Redd is taking these Noble tested bulls and many of the top one two bred heifer in Chigo Success 0012.

George Chigo, who has a Master's Degree in Animal Breeding from Oklahoma State U., has emphasized in his breeding program fertility, calvability, livability, gainability, cutability and sound and good temperament.

Through live animal inquiry and semen analysis, Chief bloodlines have been spread to many countries in several continents and throughout this nation, a monument in Chigo's breeding principle which emphasizes the economical superiority of his traits and have created new interest in good Red Angus cattle.

Page 12

## WEEKLY LIVESTOCK REPORTER

good and choice 2-4 1000 lbs. 40.00.

Dodge City, Jan. 9 (USDA) — Trade rather slow early Monday. Slaughter steers steady. Steers 4,550; mostly choice 2-4, mostly 3 1000-1175 lbs. 44.00; choice with end good 1075-1125 lbs. 43.50-43.75; several loads mixed good and choice 1050-1200 lbs. 42.50; few loads choice with end good 1250 lbs. Holsteins 39.00. Hotters 400; few loads choice 2-3 875 lbs. 41.50; near 1 loads choice with end good 900 lbs. 41.00.

Wichita, Jan. 9 (USDA) — Slaughter steers and heifers steady. Steers 850; mixed good and choice 2-4 mostly 3 1050-1100 lbs. 42.40-43.00. Hotters 800; mixed good and choice 2-3 850-900 lbs. 40.00-41.00.

Omaha, Jan. 9 (USDA) — Eastern Nebraska Feedlot Sales 2,300. Demand relatively poor, seller interest light with concern for adequately pricing livestock during current cold snap taking priority over marketing intentions. Live Sales: 10% of volume. Represented trades steady to weak. Steers: Small volume good to 80 85 percent choice 2-3 1050-1150 lbs. 43.00-44.00. Heifers: Few pens good to 60-80 percent choice 2-4 850-1000 lbs. 41.50-42.50. Dressed basis: 10% of volume. Dressed price at the feedlot not well tested, few sales steady to weak. Instances 50r lower on heifers. Weight Only Steers: Good to 75 85 percent choice 600-900 lbs. noted at 70.00, few good in 60-75 percent choice 500-800 lbs. 69.50. Weight Only Heifers: Good and choice 400-700 lbs. 67.00-67.50. In narrow price test, occasionally 68.00.

Crookley, Jan. 9 — Slaughter steers and heifers quite slow through mid-afternoon Monday, hardly enough steers sold for a test of the market. Lower volume heifers steady to 25c lower. Instances in southern Colorado 50c lower. Feeder steers fully steady, added.

## Demand Exceeds Supply of Red Angus, Sweet Says

Denton — "We're finding that we don't have enough sweet Red Angus to meet the demand for Red Angus," said Sweet, executive secretary of the Red Angus Association of America, in the pockets of sweet Red Angus production in 1977 — that was an increase over the previous year.

Sweet said that registrations by the association increased about 10 percent a year at the time last year's membership in the association was similar increase.

"One of the reasons for the increase in registrations and membership has been the fact that about 10 percent of the buyers in the program were new to the Red Angus Association and joined the association after their first Red Angus calf," he said.

"We believe Red Angus popularity has been the result of an economically reduced purchase rate at prices artificially inflated and we've assured that they wouldn't be a few years," he said.

He said the association's program has worked as hoped commercial breeders maintain a premium for their calves sired by registered Red Angus.

But, surprisingly, we've heard from Irishman breeders in the Southwest for 32 years recently — these are people wanting to produce calves, because Red Angus in strong demand at good prices.

**MAINE-ANJOU NEWS**  
Texas Traditional Maine-Anjou Sale  
Set Feb. 25 At Houston Stock Show  
Houston - The Texas Maine-Anjou Association's "Texas Traditional" Maine-Anjou sale will be held Feb. 24 at 4 p.m. in the Super Sales Salon at the Houston Livestock Show.  
The sale will offer 50 lots of full-blooded, purebred and high percentage Maine-Anjou, with all three-quarter bred females to weigh 1000 pounds or more.  
The Maine-Anjou show at the Houston Stock Show will be at 8 a.m. prior to the sale Feb. 25. A reception will be held Friday, Feb. 24, in the sales headquarters, the Holiday Inn in the Astro Village, phone 718/748-3221.  
Further information is available from the sponsors: Texas Maine-Anjou Assn., P. O. Box 1508, Brownwood, Texas, Calvin Fryar, President, phone 215/646-1584; or the sale managers, Mark II Council, Ltd., Box 5746, Kansas City, Mo. 64112, phone 816/421-5978; Neil Effertz, 913/934-1190; John Schmeidler, 913/782-5056, or Mike Black, 405/273-0232.  
\*\* Only female progeny can be registered as Appendix.  
Half-blood halfers are now eligible to show in AMAA sponsored shows. The AMAA presently sponsors broad-based shows in the American Royal in Kansas City, the North American in Louisville, the Dixie Natoseal in Jackson, and the LSU in Baton Rouge. Halfers of 50%-Maine-Anjou or greater and registered with the AMAA can now compete in these sponsored shows. Bulls must still be 75% or greater.  
**AMA Changes Show, Appendix Heifer Upgrading Program**  
The American Maine-Anjou Association Board of Directors recently approved changes in the area of the appendix heifer program, the upgrading of Maine-Anjou, and eligibility of percentage blood cattle in AMAA sponsored shows.  
The female progeny of appendix halfers bred to percentage bulls can now be registered as 1/2 bloods in the AMAA herdbook. Previously, only purebred bulls could be used on appendix halfers with the resulting heifer or bull-calf being registered as 3/4 blood. Now the female offspring of a 3/4 or 7/8-blood bull used on an appendix heifer can be registered as a 1/2 blood. However, 1/2-blood bulls cannot be registered.  
Following is a table outlining the upgrading program as now accepted by the AMAA:  

	Bulls	Females	Offspring
1/2	1/2	1/2	1/2
3/4	3/4	3/4	3/4
5/8	5/8	5/8	5/8

## 'Mini Bull' Corral Fence

**NEW IMPROVED**

**ALL-GALVANIZED NOW!** Stronger, heavier longer lasting!

Mini-Bull corral fence, originated by Bernstein Brothers, is now even better with the addition of extra-heavy gauge (approx. 3/16 in. dia.) steel pipe, bottom, and two horizontal wire wires. This fence gives greater strength and durability and will add years of service to the product. All other horizontal and vertical wires are heavy 10 gauge (over 1/8 in. dia.). Openings are 5 inches square, rolls are 5 feet high and 160 feet long. This new, improved corral fence is all-welded and all-galvanized.

**LOOK!** This is the actual size (approx. 1/4 in. dia.) of the new, heavier 8 ga top bottom and two intermediate wires

**Freight prepaid on two rolls or more**

**8400** Zone 1  
**8700** Zone 2  
**8900** Zone 3

## 'Bull-Proof' Corral Fence

**NEW IMPROVED**

**ALL-GALVANIZED NOW!** Stronger, heavier longer lasting!

This is the original "Bull-Proof" Corral Fence, designed and introduced by Bernstein Brothers as a new concept in corral fencing years ago, and now made even better with the addition of super-heavy gauge (approx. 1/4 in. dia.) steel top and bottom wires. All other horizontal and vertical steel wires are still extra heavy 8 gauge (approx. 3/16 in. dia.). NEW Improved "Bull-Proof" Corral Fencing outlasts wood, yet costs less and is faster and easier to install. A rugged, maintenance-free fencing, a one-time investment in money and time. Ideal for corrals, pens, alleyways, chutes and hundreds of other uses. All welded. All galvanized. 6 inch square openings, 5 feet in height. 180 lbs. in length. Always kept on the Original "Bull-Proof" Corral Fence.

**LOOK!** This is the actual size (approx. 1/4 in. dia.) of the new, heavier, 4 ga top and bottom wires.

**Freight prepaid**

**14500** Zone 1  
**15000** Zone 2  
**15400** Zone 3
